

Considering the challenges companies around the globe are facing due to the COVID-19 situation, we would like to share an update with you on how we plan to support you, our customers. The health and safety of our customers, partners, and employees is our primary concern. Therefore, we decided to cancel all face-to-face meetings, which also includes all scheduled inhouse or on-premise training courses.

Nevertheless, we have decided to support you – our valuable customers – with a free of charge usage of the EXTEDO eLearning platform (until 30 June 2020 for up to 5 users). We hope to facilitate your business by enabling you to work more efficiently and reducing your time to market while raising patient health care.

You may register for the following courses (please select):

eCTDmanager basic training course

We will show the most important features of eCTDmanager using an EU dossier as example. We will cover the user interface and functionality which is available in the standard system configuration. During the training course we will develop a national EU submission through the lifecycle, following typical business processes. A final chapter covers administration, user management / permissions and maintenance tools. The course also includes the MiniDMS option but is suitable for all environments.

eCTDmanager additional features for US FDA submissions (eCTDmanager features for Structured Product Labeling, Study Tagging Files, Incremental Export)

DOCmanager

EURSvalidator

EXTEDO's validation tool

eSUBmanager 3.2

We will discuss the user interface and the extended viewing & reviewing features of eSUBmanager. This course is also suitable for EURSnext users.

Let us know which of your colleagues we should register:

First name	Last name	eMail	desired start date: (dd/mm/yyyy)!

For your convenience, please fill in this form and send it back to training@extedo.com.
