EXTEDO Key User Program for MPDmanager™

With Brexit on the horizon, the EMA's IDMP implementation deadline is being pushed out. This may have delayed or slowed down your own company plans for IDMP, but it also provides you with valuable time to re-evaluate your business processes and ensure that you're ready to move quickly as soon as new dates are announced.

free of charge

no cancellation necessary

Benefits of membership

› A free one-day training course, including:
  › Introduction to ISO IDMP data model based on EXTEDO's sample product data
  › Update on EMA SPOR (RMS, OMS)
  › Introduction to IDMP support services
  › Details of how to collect IDMP data and keep it efficiently in maintenance
› Personal access to IDMP experts to help you with your IDMP project
› Access to pre-release versions of MPDmanager for IDMP
› The opportunity to influence the EXTEDO product roadmap

Whether it comes under the guise of regulation or business best practices, good quality structured data offers significant benefits to your company. For that reason, we continue to move forward with our IDMP solution. MPDmanager for IDMP is our first software release that fully supports the IDMP data collection and maintenance processes. It will provide you with the core capabilities you need to become IDMP compliant, but in the short-term it delivers a powerful medicinal product database to collecting and managing the critical meta-data associated with each of your registered marketing authorisations.

Fit for future

The EXTEDO Key User Program for MPDmanager provides you with an insight into our pre-released version and gives us the opportunity to align our processes to work together in the future. As a program member, your organization will be working alongside our experts to better understand how to shape our IDMP world, to make us fit for the future and ensure business and technology evolve at the same speed.

The Key User Program will also provide you with access to the most current knowledge directly from the IDMP taskforce, our aim is to ensure we are best placed to simplify the complex regulations, so you can adapt and achieve effortless compliance. Our consulting services ensure you have the skills to:

› Determine the right IDMP implementation strategy for your business

› Perform a gap analysis on your current vs target state

› Harmonize data and related business processes

› Choose an IT solution that ensures transition from XEVMPD to IDMP that best fits the regulatory, business and technical requirements of your organization
